## Oregon Student Wellness Survey 2012 & Monitoring the Future 2012

The Oregon Student Wellness Survey began with a dataset consisting of 65,659 surveys collected from 33 counties, 115 public school districts, and 422 schools. The filtering process removed records that had invalid grade values, reported ages that were out of sync with the reported grade levels, unrealistically high levels of use for illicit drugs or bad behavior and inconsistent responses to lifetime vs past 30 day use for illicit drugs. The final dataset consisted of 56,244 surveys (before weighting).

## Addiction by Design - Dr. Natasha Dow Schull

Recent decades have seen a dramatic shift away from social forms of gambling played around roulette wheels and card tables to solitary gambling at electronic terminals. In continuous machine play gamblers seek to lose themselves while the gambling industry seeks profit. Schull describes the strategic calculations behind game algorithms and machine ergonomics, casino architecture and "ambience management," player tracking and cash-access systems - all designed to meet the market's desire for maximum "time on device."

*Reporting anonymously to Dr. Schull, industry insiders and whistle blowers discuss Bally's behavioral science software, "seePOWER," how players are tracked and "actionable intelligence" is created to maximize profits getting gamblers to "play to extinction" (when all funds are lost).*

# Gambling Initial Certification and Recertification Update From Problem Gambling Director: Dick Johnson Effective July 1, 2013

1. CGAC I will now require 500 hours of supervised problem gambling experience of which 51% must be in the Clinical Domain. The current requirement is 100 hours of supervised experience.
2. 24 hours of problem gambling client case supervision from an approved CGAC II or NCGC II supervisor. Currently, there are no hours required here. Approved Problem Gambling Treatment Supervisor Registry to be created and the requirements established by July 1, 2013.
3. Six hours of ethics and six hours of suicide prevention training also required.
4. Six hours of ethics required for all CGAC levels for recertification.

## Test Evaluation Hosted by Eric Martin at ACCBO

Beverly DuBosch and Tanya Pritt join Dr. Henry from the Professional Testing Corporation back in mid October 2012. An entire workday was spent going over test questions for all CADC levels. Efforts during the day included that each question and subsequent answers were in fact clear, culturally appropriate and included accurate terminology.
